Portrait

A hand-drawn sketch of a mobile contact app interface in portrait orientation. The interface is enclosed in a rectangular frame. At the top, there is a header bar containing a circular icon with the letter 'L' on the left and a square icon with three horizontal lines on the right. Below the header, there are two rectangular boxes with diagonal hatching. Underneath these are four horizontal lines. Further down, there are four input fields, each preceded by a wavy line indicating a label. The first three input fields are empty, while the fourth contains a wavy line. At the bottom of the main content area, there is a rectangular box containing a wavy line. The footer consists of a dark bar with four circles and a wavy line below them.
